## The Harrison Herb Garden

was created in 1998.

*It was the generous gift of the Harrison Family in memory of William Harrison, who lived on Phillips Road for 50 years.*

*The Chase Foundation matched their generous gifts from the Harrisons and the bank to augment the original plantings.*

Beverly Gibson, certified arborist, spent a year researching the plan, then implemented it with the help of Alana Miller.

*The Herb Garden matches the original six pods of roses created by Elmer Smith.*

*It is maintained by Ms. Gibson, volunteers and seasonal help.*
